# WESTERN UNDERGRADUATE EXCHANGE ENROLLMENT REPORT FALL 2006

## INTRODUCTION

The Western Undergraduate Exchange (WUE) was initiated in 1988, opening up new opportunities for undergraduate study in a wide range of programs in public two-year and four-year colleges and universities. More than 21,500 students are enrolled in 134 WUE institutions for the 2006 academic year.

In WUE, states include programs in which they are prepared to enroll residents of other participating states at a tuition rate equal to 150 percent of resident tuition. This special rate represents a significant savings over normal resident tuition for students and their families. Sending states gain access to a wide variety of high quality academic programs that may not be available in every state. For receiving states and institutions, WUE can help build an enrollment base to strengthen programs, improve efficiency, and provide student diversity.

All 15 WICHE states are now participating as equal partners in WUE. Effective January 2006, all WICHE states are encouraged to receive qualified students from California. Up until 2005, only one California institution received WUE students, and several states did not consider California as a fully reciprocal partner. Now that six California institutions are participating in WUE, California students will have more opportunities to enroll as WUE students, and students from other WICHE states will have more opportunities to study in California. We welcome CSU Dominguez Hills and CSU Bakersfield as our newest California partners for the 2007 academic year.

We are also pleased to announce that Colorado State University Fort Collins and the University of Northern Colorado have returned to the WUE network effective Fall 2007.
