WESTERN UNDERGRADUATE EXCHANGE
ENROLLMENT REPORT
FALL 2004

INTRODUCTION

Since its creation in 1988, the Western Undergraduate Exchange (WUE) has grown rapidly. More than 20,000 students are enrolled in 126 WUE institutions this year. With the addition of Arizona in 1999 and Washington in 1997, fourteen states are full participants in the program. In addition, as of Fall, 1998, selected programs in the states of Alaska, Hawaii, New Mexico, North Dakota, South Dakota, Washington, and Wyoming have agreed to accept students from all of the WICHE states, as does the California Maritime Academy.

Degree programs in WUE admit qualified residents of other participating states at a special WUE tuition rate that is 50 percent more than the institution's regular resident tuition.

For students and parents, the program helps meet the cost of college education. Sending states gain access to a wide variety of high quality academic programs that may not be available in every state. For receiving states and institutions, WUE can help build an enrollment base to strengthen programs, improve efficiency, and provide student diversity.

This report details the flow of students both **to** and **from** states. It lists the programs in which students from each state are enrolled, identified by the CIP code where available. Included are two charts showing a five-year summary of students **sent** and **received** from each state demonstrating the continued growth of the program. The report is based on enrollment data provided by the states and schools.

Policies governing the Western Undergraduate Exchange are made by WICHE on recommendation of the Programs and Services Committee of the WICHE Commission. Further information about the Western Undergraduate Exchange is available from State Certifying Officers and WICHE, and through the WUE web site (***www.wiche.edu/sep/wue***).
