"I'll be the first member of my family to receive a college degree. Without the reduced tuition available through WUE, it would have cost over \$100K to attend college. I have learned so much in my first semester at Central Washington University. I hold tremendous gratitude for the WUE program. WUE is a worthy investment; it's allowed me to improve my life, and I feel called to give back to the community in honor of the assistance extended to me. Thank you!"

**- Kelsey, Oregon resident,
Class of 2014, Central Washington University**

Almost 700 masters, doctorate and graduate certificate students enrolled in programs of study through the Western Regional Graduate Program (WRGP) have saved an estimated \$7.2 million dollars; they pay only resident tuition, instead of nonresident, and can choose from some 215 participating programs. Finally, some 700 students paid significantly reduced tuition while preparing for their professional degree in 10 healthcare professions while enrolled through WICHE's Professional Student Exchange Program (PSEP).

WICHE also recently created a network of Western institutions that are partnering to exchange courses via the Internet, through WICHE's next generation of student exchange, called the Internet Course Exchange, or WICHE ICE. More information about all these programs is available at www.wiche.edu/studentExchange.

The Western Undergraduate Exchange (WUE)

The Western Undergraduate Exchange (WUE) is a regional tuition-reciprocity agreement that enables students from WICHE states to enroll in participating two- and four-year public institutions at 150 percent of the enrolling institution's resident tuition. WUE has been operating for almost 25 years and is the largest program of its kind in the nation. Since 1999, WUE has provided WICHE students and their parents discounts on more than 236,600 annual tuition bills – a benefit of a remarkable \$1.4 billion dollars in estimated tuition savings. And since the WUE program began in 1988, WICHE state residents have saved on more than 300,100 annual tuition bills.

The program continues to grow: in 2010-11 some 26,700 WUE students saved \$210.8 million dollars in tuition costs. This year, WUE students saved an average of \$7,891. The graph below shows the continued growth of the program in enrollment and savings over the last five years.

Students can choose from 145 participating WUE institutions. California State University's Monterey Bay is WUE's newest member, and will begin enrolling students through WUE in fall 2011.

To learn more about the wide array of programs available at WUE institutions, consult our searchable database located at www.wiche.edu/wue. For additional details, follow the links to the receiving institutions' WUE profiles and websites.

Fall 2010 WUE Enrollment Trends

This fall's WUE headcount demonstrates that WUE students know where the current and future job opportunities are. Their "Top Ten" majors are directly aligned with some of the West's most crucial workforce needs. They are healthcare, the biological and biomedical sciences, engineering, and business.

- Healthcare professions majors that WUE students are studying include: nursing, the allied health professions (such as physical therapy,

occupational therapy, radiology, respiratory therapy, nuclear medical technology, audiology, and clinical laboratory science), dental hygiene, healthcare administration, and healthcare information technology (HIT). Students are also using WUE to complete their undergraduate degrees to advance to the professional level: many are majoring in pre-med, pre-dentistry, pre-pharmacy and pre-veterinary studies.

- Biological and biomedical science majors targeted by WUE students include biochemistry, biotechnology, genetics, microbiology, botany, zoology, marine biology, and more.
- Engineering majors of interest to WUE students run a wide range and include engineering specialties in biomedical, chemical, civil, computer, electrical, mechanical, mining and mineral, nuclear, petroleum, industrial, geological and geophysical, and electrical engineering, as well as others.
- Business, management and marketing majors include: accounting, business administration and management, finance, hospitality and hotel administration, marketing, human resource management, construction management, and international business, among others.

Other majors at the top of WUE students' lists are in the areas of: education; the social sciences; visual and performing arts; psychology; parks, recreation, leisure and fitness studies; and communication and journalism. Research shows that graduates tend to join the workforce and settle in the region where they studied. It is good to know that through WUE, our states are working to keep our best and brightest in the West.

Detailed WUE enrollment reports are available on WICHE's website, and custom CIP code-based reports are also available by request to state higher education offices and enrollment planners of participating institutions. Learn which programs your home state residents seek through WUE, and which programs in your state attract the most WUE students. To request these custom reports, contact our office at 303.541.0214 or info-sep@wiche.edu.

Why Participate in WUE?

WICHE encourages nonparticipating institutions to consider how WUE can help them meet their recruiting and enrollment goals. Institutions, with the guidance of their state governing agencies, have significant latitude in the way they can use WUE. Our WUE partner institutions formulate admissions control policies that work best for them and their state workforce, but benefit enrolled students and their families from elsewhere in the West.

"The students who have attended Montana Tech as part of the WUE program have been a great asset to the school. They bring new perspectives into the classroom and generally excel academically. Many of these students have gone on to be significant contributors both intellectually and financially as alumni. Without the WUE program, Montana Tech would not have its current regional presence and many of these students would not have been able to afford to study at our school."

**- Tony Campeau, Director of Enrollment Management,
Montana Tech of the University of Montana**

"Serving as a cadet at California Maritime Academy has been life-changing. My peers drive me to always 'do better' and I've gained hands-on experience, cruising through the Pacific Ocean on the school's 500-foot training ship, The Golden Bear. Now in my senior year, I'm in charge of the Housing and Resident Life Program, serve as a leader in the Corps of Cadets, participate in the Gold Medal Leadership Program, and am president of the Student Body Association. I am grateful to WICHE; WUE has helped me reach my full potential and become more than prepared for life beyond college."

**- Sean, Washington resident, Class of 2011,
California Maritime Academy, Global Studies and Maritime Affairs**

Each state or institution controls its level of participation in WUE. Some states set limits on the total number of students admitted. Each state and institution chooses which programs they wish to make available to WUE students, and under what conditions. In many cases, institutions have opened all of their programs on a space-available basis. In other cases, institutions have excluded some programs or have listed only specific programs that are open to WUE students.

Whether your institution is currently participating in WUE or now considering it, we encourage you to read the "WUE FAQ" posted on the WUE institution interface of our WUE website, as well as the 2005 study of tuition reciprocity programs that explains

the policy logic behind WUE and other regional tuition reciprocity programs. (See Student Migration: Relief Valve for State Enrollment and Demographic Pressures, available on WICHE's publications website.)

For additional information about joining WUE, contact WICHE's director of student exchange at 303.541.0214.

"The WUE program has allowed our coaches to broaden their recruiting scope while maximizing their scholarship budgets. We have a significant number of student athletes who receive partial or no athletic aid, and WUE allows them to attend Metro State at an affordable rate, participate on a highly competitive Division II team, and pursue the major of their choice. Student athletes account for about 15-20 percent of our WUE enrollment. WUE has allowed us to remain competitive in the recruiting process and attract talented and diverse students from the West at an affordable tuition rate."

- Ellen Boswell, Director of Institutional Research,
Metropolitan State College of Denver

I'd always dreamed of attending college out of state. I wanted to get out of my comfort zone, explore, and redefine myself. When I came across Western Washington University, I knew it was the perfect place for me. I applied and was accepted, but was extremely nervous about how I would afford tuition, until I was offered WUE. It allowed me to pursue my education in a setting where I am surrounded by positive people, invigorating academics, and a breath-taking natural environment. I now work in admissions at WWU and see firsthand how WUE allows students like me the opportunity to dream big!"
